We are the Secular Jewish Community & School, a community that welcomes those looking for ways to learn and celebrate Jewish culture, customs and history in a secular, humanistic context.

If you have been curious about us and are wondering if SJCS may be a good fit for you and your family, please come and check us out. Newcomers can meet community members while the children participate in a fun activity with other classmates and our outstanding teachers. We are a growing and thriving community and welcome all who wish to join us.
